

# Chemical Supplies

Cat. #

- 508** 8 oz. **All Purpose Liquid Flux - 8 oz**
- 501** Pint **All Purpose Liquid Flux - Pint**  
Chemically cleans your lead and copper foil for strong, smooth solder joints. Flux washes off easily with soap and water.
- 502** 4 oz. **Glaster Liquid Gel Flux**  
Slightly thicker liquid flux excellent for soldering copper foil, zinc and lead came.
- 503** 16 oz. **Invisible Glass Shield**  
A wipe-on polymer coating for glass that repels water and dirt. A must for etched glass, mirrors, shower doors, and exterior stained glass.
- 510** 8 oz. **Mirror Flux**  
Blu-Glass is a very mild flux used primarily when soldering mirror to help prevent black spotting on the edges.
- 516** 16 oz. **Flux Remover & Cleaner**  
Neutralize flux & patina residue to help prevent 'white mold' on your solder lines.
- 524** 4 oz. **Toyo Cutting Oil**  
A special blend of oil recommended for proper lubrication of Toyo glass cutters.
- 530** 8 oz. **Black Patina**  
Chemical applied with a cloth to darken solder, lead, zinc & brass came.
- 537** 19 oz. **Hi-Sheen Glass Cleaner**  
Leaves glass spotless, and cleans just about any non-porous surface. Foaming action quickly lifts tough residue like grease, sap, and dirt. Doesn't run!
- 540** 8 oz. **Copper Patina**  
Applied with a cloth to soldered areas to produce an antique copper color.
- 551** 10 oz. **Armour Glass Etching Cream**  
Fast acting glass etching cream lets you create a permanent frost on windows, mirrors and household glassware.
- 552** 1 Lb. **Glue Chipping Glue**  
Make your own glue chip glass with this special glue. Applied to cathedral or window glass, the glue pulls off random chips of glass as it dries.
- 561** 1/2 Pt. **Weather Sealant Putty**
- 562** Pint **Weather Sealant Putty**  
Dark grey putty used to weatherproof lead came panels
- 570** 1 lb. **Whiting**  
A fine powder used to absorb and dry excess putty when weather proofing leaded windows. Can also be used dry as a glass polish.
- 575** 8 oz. **Router Coolant**  
A capful of water soluble lubricant used in your grinder water tray will make grinder heads last longer and cut faster.
- 590** 12 oz. **Stained Glass Finishing Compound**  
100% Carnuba wax polishes patina on solder seams & protects against tarnish for a bright, durable finish. Produces a "blacker" color when used over black patina.
- 595** 16 oz. **Clean-All Heavy Metal Soap**  
The soap bonds with heavy metal residue such as lead, cadmium and zinc, to completely rinse away contaminants. 16 oz. squeeze bottle.
- 3017** **Flux Brush**  
Used to apply liquid flux to areas being soldered.
- 3035** 1/2 lb. **Tinning Block**  
Sal-Ammoniac block to rub your hot soldering tip on, removing oxidation buildup.
- 3128** **Putty Brush**  
Small stiff bristled wood brush for cleaning leaded panels with whiting.
