

Taurus/DTI Diamond Glass Saws

Cut Any Glass Shape With Ease!

Taurus 3 Diamond Ring Saw

The Taurus Model 3 Diamond Ring Saw is a unique glass saw that will have you cutting like a pro! The diamond coated stainless steel ring blade cuts glass in any direction, forward, backward, or sideways – with no grinding required afterwards! The ring saw is also removable from the table base to use as a handsaw! Water is continuously deposited around the blade to ensure a cooler, longer lasting blade. Safe to operate, the diamond ring blade will not cut your fingers, but slices through glass, ceramic, metal, and tile! 11" x 16" worksurface. 1/5 HP. 110 volt. Made in the USA with a full 3-year warranty.

#TAURUS3

Taurus Standard Blade

Replacement diamond blade for Taurus Ring Saws complete with spare grommets for each model.

#TRB3 for Taurus 3

#TRB for Taurus 2.2

Taurus Diamond Separating Blade

By drilling a pilot hole in your glass, you can insert this separating ring blade in the hole and cut out any shape, inside hole, or pattern. Complete with spare grommets for each model.

#TRBS3 for Taurus 3

#TRBS for Taurus 2.2

Super Slicer

A unique fixture to use with any ring saw or band saw. Cut thin slices of glass rod, cane, pattern bars, etc. for fusing.

#SLICER

Taurus 3 Slicer Blade

The thinnest blade for the Taurus 3 Ring Saw ONLY. Cuts from front or back, but not side to side. Perfect for use with the *Super Slicer* fixture.

#TSB3

Taurus Dichroic Blade

Slim blade with a fine diamond grit for chip-free cutting of delicate dichroic and iridescent finish glass.

#TDIB3 for Taurus 3

#TDIB2 for Taurus 2.2
