

Copper Foil & Tools

Copper and Specialty Foils are used in making your Tiffany style lamps and window panels. The adhesive backed foil is wrapped around each piece of glass to be soldered together. The narrower foil sizes will produce a more delicate lead line and use less solder as well. Each 36 yard long by 1.25 mil thick roll is individually wrapped for long shelf life. Actual size foil widths are shown at right.

NOTE: Copper foil pricing subject to metals market fluctuations.

Copper Foil

Edco brand is the finest quality, 'dead soft' foil, for easy and secure wrapping of all your glass pieces.

Black Backed Foil

Eliminates the inner copper-colored lip visible on clear glass, bevels and mirror when black patina is used on your solder. (Easier to see than to explain!)

Silver Backed Foil

Eliminates the copper-colored lip that will show thru clear glass, bevels or mirror when leaving a piece unpatinaed.

Scalloped Copper Foil

Creates a very attractive and decorative edge on those special stained glass projects!

6" Wide Copper Foil Sheet

Used for cutting custom overlays and filigrees.

Thinline Foil Pattern Shear

New design allows your cut paper pattern to glide over your hand without interference. Thinner (0.8 mm wide) stainless steel center blade will let your glass pieces fit tighter. Includes FREE rasp sharpener.

#3526

Pattern Shears for Foil

High quality 3-bladed pattern shears. Unlike cheaper brands that cut unevenly, these stainless steel shears cut true every time! Removes 1/32" from your pattern to allow for the thickness of copper foil in your design. Accurately cut patterns mean less glass grinding later. Contoured handles for hours of comfortable cutting.

#6506

Glstar Foiler

A professional tool to speed up your foiling. Features a small crimping wheel to foil tight inside curves, adjustable peeler for stripping foil backing, overhangs table edge to foil large glass pieces, accepts 3 sizes of foil.

#3027

Strongline Reinforcement

See the beauty of copper foil, but feel the strength of steel! Reinforce your larger foiled and leaded panels to prevent future bowing. Strongline is a thin, copper coated steel ribbon only 1/8" wide that is invisible in your soldered or leaded window. 25' roll can reduce or eliminate the need for bulky external rebars.

#SL25

Hand Foilers & Foil Crimper

Hand foilers apply foil to a piece of glass automatically centering it. The result? An even, perfect application without bubbles or creases. So easy, you can actually foil with your eyes closed! Available in three sizes, to apply 3/16", 7/32", or 1/4" foil. A companion to the hand foilers is the crimper, which folds and adheres foil to both sides of your glass in one quick step!

Reinforce Your Work

Thin, flat braided wire is inserted between your foiled pieces, and when soldered over becomes absolutely rigid! Adds hidden strength and durability to any copper foiled project. Outline the perimeter of your panel or lampshade to create a strong and attractive edge.

Foil Roller

The comfortable 8" long foil roller will speed up your foiling as it crimps, burnishes, and smooths all sizes of copper foil.

#3016

Copper Foil Dispenser

Keep your various foil sizes neatly organized. Dispenses up to 7 rolls of foil or the largest slot can hold scissors, knife, etc.

#3012

Take the Fuss Out of Foiling

Portable tool that dispenses, applies and crimps foil in one smooth process! Unlike hand-held foilers and other machines, the Table Foiler creates a flat, sturdy work surface that adds control for even the most intricate foiling projects. Just guide glass into the roller and go! You'll be able to foil more quickly, consistently and precisely than ever before. Enjoy perfect foiling, time after time. Includes rollers for 3/16", 7/32" and 1/4" foil.
