

# GST Bevel Clusters

## Glassmith Studios Bevel Clusters

These exclusive brilliant, clear bevel clusters are gorgeous, whether used by themselves or incorporated into a spectacular window or door panel! Some of the clusters are available as pairs – facing right (R) or left (L), and in brilliant color (C). Dimensions shown are approximate and pictures are not to scale. Patterns for these clusters are shown in the Glassmith Books on page 32 of catalog. Book numbers with patterns are listed in parenthesis below each cluster. (Background glass shown is NOT included with clusters.)
