

# Fusible Spectrum System 96™ Glass

**S**pectrum System 96™ glass for fusing and hot-glass arts. It is factory tested for fusing compatibility with a COE of 96. While looking similar to their standard stained glass, 'Tested Compatible' 96 Spectrum Glass is specifically formulated for devitrification resistance & superior stability when fusing or slumping. It can, of course, also be used in traditional stained glass windows and lamps.
